

There are new and exciting services in London for people living with, affected by or at-risk of hep C.

There are now services available for hep C testing, treatment, social supports, and support with basic needs and addictions.

The information fair is a chance for you to:

- See what agencies are providing direct hep C services and learn how to refer clients to these services
- Meet and make connections with the workers who are providing direct services to people living with hep C
- Find out all of the services that are available to people living with hep C
- Get information and resources on hep C to bring back to your agencies
